RE: Annual Review of Base Rates for Fuel Costs for South Carolina Electric & Gas
Company
Docket No. 2017-2-E

Dear Ms. Boyd:

On behalf of the Charleston International Manufacturing Center, I herewith request that the Public Service Commission ("Commission") grant my client an extension of time from April 27, 2018, until and including August 25, 2018, to connect its solar facilities to South Carolina Electric & Gas Company ("SCE&G"). By Order No. 2018-189, the Commission granted SolBright from April 27, 2018, to August 25, 2018, to connect to SCE&G's facilities, and it invited other entities similarly situated to request similar relief from the Commission. As a similarly situated entity, Charleston International Manufacturing Center hereby requests the same relief.

The Charleston International Manufacturing Center, which is an international business park owned and operated by Cooper River Partners, LLC and is also known as Bushy Park, is located near Charleston, South Carolina and has plans to install a one megawatt solar project to serve its business park. Cooper River Partners currently owns and operates an existing one megawatt solar facility serving its business park. Although plans for the new one megawatt solar project are well underway, Cooper River Partners has encountered time delays beyond its control.

The Commission had previously acted to grant interested parties time to implement solar development. Order 2017-246 allowed customers already approved by SCE&G to participate in the Bill Credit Agreement for Renewable Energy Facilities ("BCA") program an additional twelve (12) months to successfully interconnect infrastructure facilities to SCE&G's system. SCE&G's customers such as Cooper River Partners currently have until April 27, 2018, to interconnect with SCE&G.

Jocelyn G. Boyd, Esquire

Page 2

SCE&G consents to Cooper River Partners' request for an extension from April 27, 2018, until and including August 25, 2018. No other party or entity will be prejudiced or adversely affected by this request. Moreover, the expansion of solar generation is in the public interest.

Accordingly, for the reasons set out, Cooper River Partners hereby requests that the Commission grant it an extension of time from April 27, 2018, until and including August 25, 2018, to connect its solar facilities to SCE&G.

I would welcome questions from counsel or you. I look forward to hearing from you.

Sincerely,

ELLIOTT & ELLIOTT, P.A.

Scott Elliott
